TALENT AUGMENTATION

HOW WE PARTNERED

Screens withheld under NDA

Hybrid outstaff+full DevOps model:

Our DevOps specialist provided a comprehensive consultation and developed the solution architecture and implementation plan. He joined the in-house team and efficiently implemented the solution within a tight deadline. ←

Online dating platform

Industry: *Entertainment, Online Dating*

Services: *DevOps consulting and talent augmentation*

CLIENT PAINS

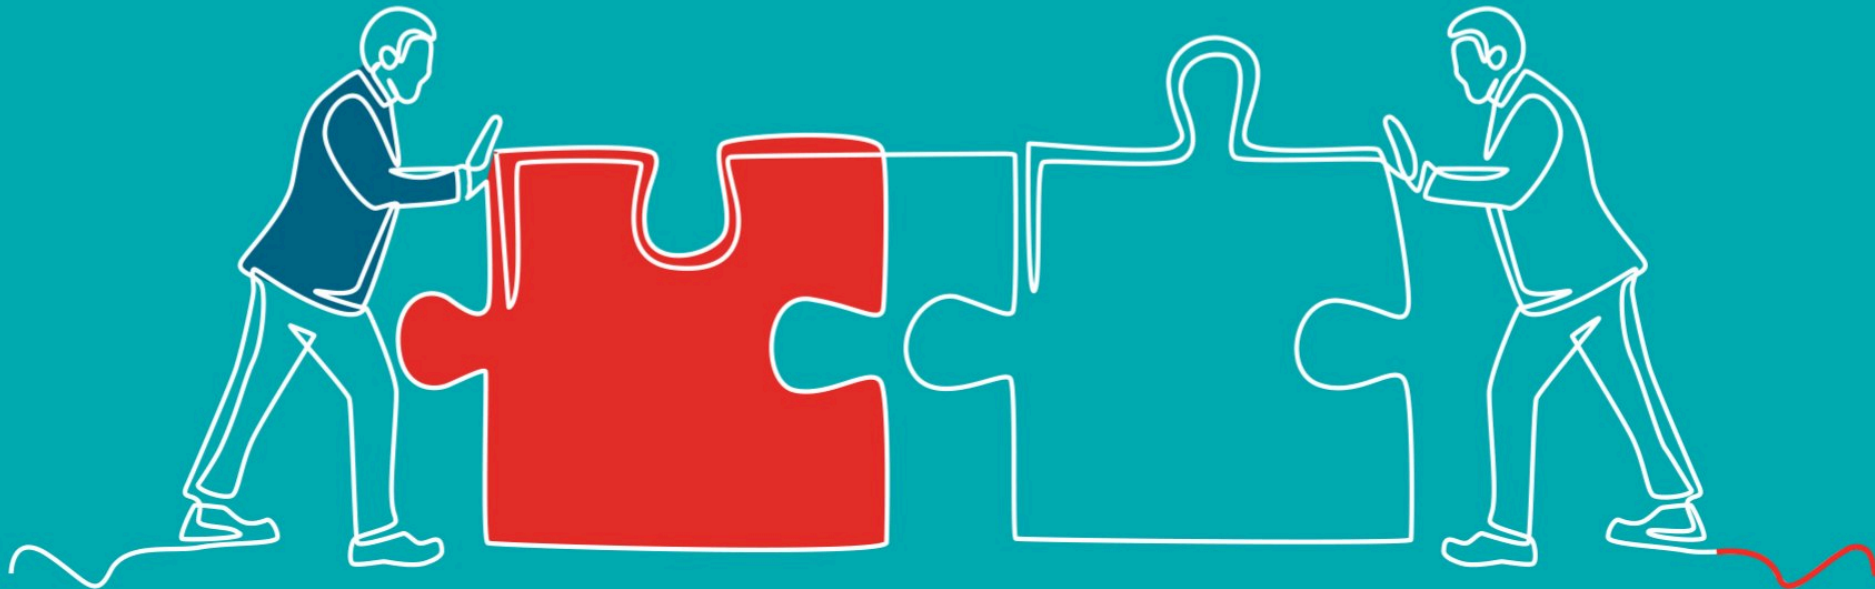

There was an urgent need for DevOps expertise and infrastructure upgrades with full outside expertise to develop and implement the cloud migration plan:

- Current **infrastructure struggling** with scalability issues
- Concerns about **security vulnerabilities** in existing setup
- **Inefficient** and time-consuming **deployment** processes
- Lack of proper **secrets management and access control**

CLIENT GOALS

The client aimed at receiving critical DevOps expertise and getting the work done within the shortest time possible to accelerate cloud migration and optimize infrastructure of the service:

- Employ an expert to rapidly develop a **cloud migration strategy**
- Improve **infrastructure scalability** and enhance overall **system security**
- **Streamline and automate** deployment processes

OUR APPROACH

Our DevOps expert developed the solution plan and took on the project completely to deliver results:

- **Assessed** current **infrastructure**
- Developed comprehensive **AWS migration strategy**
- Provided **actionable recommendations**
- Implemented **security best practices** and access control measures
